Important News for All on Supplement A

Soroptimists were hard at work at CSW54 in New York!

This year's SI delegation to CSW (Commission on the Status of Women) broke records we were aware of 42 delegates, but many more made themselves known during the two week conference.

More than 3,400 individuals from some 460 organizations in 138 countries, attended this year's conference. Despite experiencing a difficult registration process and strained facilities with limited seating, delegates attended over 90 parallel events hosted by Permanent Missions and UN Entities as well as hundreds more organized by NGOs. Everyone seemed to seize the opportunity to meet others who shared their passion for gender equality and exchanged expertise and swapped success stories on how to tackle injustice and discrimination against women and accelerate progress in all areas of the Beijing Platform for Action.

SI delegates from all four Federations and our UN Representatives in New York met for briefings and exchange of experiences during the first week of the CSW54 conference. 'First timers' teamed up with 'old hands' and everyone reported how they were negotiating their way through the corridors of the United Nations.

The Soroptimist profile was raised through our own workshops and panel discussion participation, all of which were over subscribed and proved to be most successful!

Please read the 14 CSW reports on the SI Blog and view the YouTube video of FPD SIE - Ulrike Neubert- making an Intervention at one of the Plenary Panel discussions on VAW:

TIS—The International Soroptimist has gone digital!

The International Soroptimist magazine is now available to all via various SI websites. There will be four issues in 2010—March, June, September and December.

<http://www.soroptimistinternational.org/html/publications.html>

UN Millennium Campaign and UN Non-Governmental Liaison Service launch website "The MDGs at 10 Programmes and civil society".

<http://www.un-ngls.org/spip.php?page=mdg2010>

Only five years remain to achieve the Millennium Development Goals (MDGs). Despite some progress, collectively the world is falling short. As a consequence, improvements in the lives of the poorest are slow or absent and are now being further eroded by the onset of global crises. However, the MDGs are still achievable. UN Member States will come together this September in New York during an 'MDG summit' to accelerate progress towards the achievement of the MDGs. This website aims to keep interested civil society stakeholders informed on the latest developments related to the summit process.
